

MSAB OFFICE

OUR MOST POPULAR SOLUTION FOR MOBILE FORENSIC EXAMINERS

MSAB Office available with both logical and physical support is an all-in-one platform solution designed for mobile forensic examiners. It allows full access to thousands of mobile devices with all the necessary hardware supplied to operate on your Windows PC.

XRY is purpose built software, complete with the necessary hardware for recovering data from mobile devices in a forensically secure manner.

DESIGNED FOR SKILLED USERS

OPEN SOLUTION FOR WINDOWS

POWERFUL MOBILE FORENSICS

MSAB

100% FOCUS ON FORENSICS

With MSAB Office you can achieve more and go deeper into a mobile device to recover vital data. With a combination of logical and physical extraction tools available for supported devices; MSAB Office can produce a secure audited report containing both live and deleted data from the same handset.

THE FIRST CHOICE

MSAB Office is the first choice among law enforcement agencies worldwide, and is our most popular choice of platform amongst mobile digital forensic professionals for examining devices – straight out of the box.

USER FRIENDLY & FLEXIBLE

The XRY software application runs on Windows and is powerful enough to deal with all of the modern demands of forensic examiners. The interface is simple to navigate, with a user friendly wizard designed to help guide you through the entire process from start to finish, so you can immediately begin to recover data with confidence.

With XRY, a tamper-proof report is created within minutes which can easily be customized and exported to meet all user's needs, including references and your own organization branding as required.
